

# 1 Motivation and Goals

Wealth inequality in a capitalist society is an effective form of economic slavery. When inflation becomes rampant, automation devalues labor, and wealthy individuals accumulate disproportionate wealth via the Matthew Effect, freedom and well-being for the populace is destroyed. Individuals cannot find quality, affordable living, nutrition, wellness, autonomy of work, family stability, and recreation.

The economy at the beginning of the 21st century is digitized.

Here's a test citation [1].
